WHY CHOOSE?

OUR COLLEGE

Sunrise Group of Institution commented on its journey as a part of Sunrise Society in the year 2003 in the field of nursing education. Since then it has phenomenally grown in various domains such as Nursing, Pharmacy, Physiotherapy and Paramedical Education. Also, it has taken a new baton in hands by offering B.Com, BBA, B.Sc, BCA, and B. Librarian. SGI provides a well-organized library with a humongous set of books to guide the students towards a bright future. SGI offers you a lush campus with fully equipped laboratories of all the departments. To enhance the skills of the students, we offer fully flourished computer labs that help in building brighter and smarter leaders out of the students. Our key concern is to excel in teaching and learning and let our students specialize in their dream stream. Our teaching methods are a blend of traditional and modern methods for the best development of the student. Advanced teaching strategies that involve problem-based learning are followed with regular lectures, teamwork, and self-evaluation sessions. We try to bring out the best in each individual. So, at the end of the day, they stand at the pinnacle with success in one hand and a positive attitude in another.

UDAIPUR

THE CITY OF LAKES

Also Known as the 'Venice of the East' and the 'Kashmir of Rajasthan. Udaipur has been named as the world's best city in a poll by Travel and Leisure Magazine. With the achievement, the city has become the first South Asian Hotspot adding one more feather in its cap of prestige. It nestles amidst of Aravali Range with the average temperature of 25 to 35 degree Celsius. Udaipur is well connected through rail road and air transport with the rest of the country.

OVERVIEW

We welcome you to the world of Sunrise College where cognition, innovation, and wisdom all come together. This institute of learning was formed by a group of philanthropists in 2003 with an objective to provide education and excel in the fields of Management and Medical. SGI provides quality education using the latest technology with advanced teaching methodology to build future global leaders who would definitely reach the pinnacle of success. Our campus is spread over more than 11 acres of land in almost zero pollution zone along with ragging-free and noise-free areas as we believe in committing our students to social and environmental responsibilities.

SGI provides international exposure by conducting various training and placement programs abroad as we believe in the overall enhancement and employability of students as a whole. We offer different subjects and study options for students with effective learning and teaching. We thrive to provide a creative and supportive environment in which our students flourish with new ideas and creations. Our teaching methodology is completely focused on achieving the outcomes from our students which take them in the direction of knowledge and skill development. Our only motto is to take academic excellence to a completely next level.

MISSION

Our mission is to change the face of education through academic rigor and advanced teaching strategies that give our students a platform to stand out from the crowd. We take up the challenges of the present global education world to prepare our students for strong analytical and thinking skills. We build entrepreneurs by giving them all academic and cultural exposure.

VISION

Our vision is to impart futuristic technical education, managerial skills, and instill high patterns of discipline through the dedicated team, which shall set global standards through excellence in teaching. We focus on making our students technologically superior and ethically strong, who in turn will reach beyond excellence in their lives.

Harish Rajani
Chairman

MESSAGE FROM CHAIRMAN

We welcome the rising young minds to the Sunrise Group of Institutions, Udaipur, with open hearts and a sense of immense pride! I'm extremely overwhelmed to see that these young future leaders are getting brilliant guidance from our dedicated faculty with such sincerity. We want our students to become competent professionals of tomorrow who would lead the world with a deep passion for humanity in their hearts. Our institute believes in offering multiple opportunities to our students and professionals so that they grow and rise in every aspect of life. I wish success to all the students and hope they write a wonderful success story of their life tomorrow!

The group is focused in giving the quality education to students, the courses includes pharmacy, nursing, physiotherapy, paramedical or Lab Technician. In pharmacy we have the courses B. Pharmacy and D. Pharmacy, the nursing college includes Bachelor of Science (nursing), Post B.Sc. (nursing) and G.N.M. Our physiotherapy college provides Bachelor of Physiotherapy course and the paramedical sciences college gives the Diploma courses in DMLT & DOTT.

PHARMACY

B.Pharmacy | D.Pharmacy

Pharmacy includes everything related to wellness, right from the food you consume to the cosmetics, lifestyle products, health, and chemical products that you use. As a Pharmacist, an individual needs specialized expertise about the composition of medicines, including the chemical, biological, and physical properties, as well as related manufacturing details and use. Other health care professionals are dependent on a Pharmacist to select and administer medications that offer the best results and quality of life for a particular patient. Pharmacists will use professional knowledge to prepare and dispense prescriptions, ensure medicines and doses are correct, prevent harmful drug interactions, and counsel patients on the safe and appropriate use of their medications. They study and keep track of all medicines and products with market surveys by connecting with a medical practitioner and distributors for any side effects, reactions, and allergies, etc. Although, before distribution in a market, the medicines are tested in labs because of the complexity and diversity of human beings. Different outcomes from the same medicine can occur, therefore, a Pharmacy practitioner has to research and develop medicines and prescriptions at multitudes.
